I created these categories and saved that meet as a template.

The screenshot displays two windows from a software application. The background window is titled "Age Groups Setup" and contains a table with the following data:

	Div	Name	Code	Range	Calc	Bday Range	Entry Max	Relay Only
⊗	1	9 year old	9yr	9-9	A-A	1/1/2008 - 12/31/2008		
⊗	2	10 year old	10yr	10-10	A-A	1/1/2007 - 12/31/2007		
⊗	3	11 year old	11yr	11-11	A-A	1/1/2006 - 12/31/2006		
⊗	4	12 year old	12yr	12-12	A-A	1/1/2005 - 12/31/2005		
⊗	5	13 year old	13yr	13-13	A-A	1/1/2004 - 12/31/2004		

The foreground window is titled "Edit Age Group" and is for "Division: 1 (9 year old)". It contains the following fields and controls:

- Name: 9 year old
- Code: 9yr
- Min Age: 9
- Max Age: 9 (zero for no max)
- Max Entries: 0 (zero for no max)
- Min Age Calc: Age Up Date
- Max Age Calc: Age Up Date
- Relay Only:
- Buttons: OK, Cancel

At the bottom of the "Age Groups Setup" window, there are buttons for "+ Add Age Group", "Set to USATF", "Cancel X", and "Recalc Athlete Age Groups".

Export Data

Spread Sheet Hy-Tek Meet Manager LynxPad Easy Meet Runscore Sportdata Other

Export data as of: All data Since last export Custom date 

IMPORTANT: If you are using Divisions within Hy-Tek YOU MUST make sure the Division #'s in TrackieReg correctly match the Division #'s in Hy-Tek. If they do not match you will get lots of exceptions when you try to import your file. For more information about changing the division #'s in TrackieReg [watch this short \(90 second video\)](#). Also in Hytek any event 600m and over should be labelled as a "Run" and not a "Dash". If you have any problems or questions please contact us at info@trackie.com.

Include Branch abbreviation in front of Athletics Canada # (eg. ON 1234567)

Using the Web Server built in to the Client Application of MeetPro 2.0

The screenshot shows a 'WebApp Server Setup' dialog box with the following fields and controls:

- IP:** 192 . 168 . 0 . 156
- Port:** 5252
- Password:** keepitsimple (with a toggle switch to the right)
- Root Directory:** C:\Users\Ted\Documents\...
- Index Page:** index.html (with a dropdown arrow)
- Log Directory:** C:\Users\Ted\Documents\...

At the bottom, there are two buttons: 'Save ✓' and 'Cancel ✗'.

You must remember to “Start The Server”

Getting Started

Welcome to MeetPro's new WebApp software! To get started, select an event from the **Event** menu. The entrants into the event will be automatically loaded onto your screen.

For horizontal jumping or throwing events, select an athlete by simply clicking on his or her name and begin recording marks. Click the **Record** button to bring up an input box, then type the mark and press the **Enter/Return** key or click the **Submit** button next to the box. You may also click the blank box to display the input box. Note that this will only work for the "next" attempt. All types of input are accepted, metric or imperial. Metric inputs are accepted with or without decimal places. Imperial inputs require a hyphen(-) or xx'xx" notation to be recognized. You can record fouls and passes by typing "Foul" or "Pass" (not case sensitive) or the letters "f" or "p", as well as by clicking the **Foul** or **Pass** buttons at the top of the screen. Marks can be deleted by clicking on the box containing the mark and clicking the "x" button that appears.

For vertical jumping events, you may need to enter new heights. If there are no initial heights, press the **+** button underneath any athlete to bring up an input box. Submit the height by pressing the **Enter/Return** key or clicking the **Submit** button next to the box. After a few entries, MeetPro will prompt you with an Auto-complete feature. Either accept and enter the total amount of heights you desire for the event or decline and continue entering heights manually. Once you have entered a height, you can edit heights by clicking the **Edit Height** button in the event information area. To begin recording marks, select an athlete by clicking his or her name. Then select the bar height that athlete is currently attempting by clicking the appropriate height. Assign a mark for the attempt using the **Over**, **Foul**, and **Pass** buttons at the top of your screen.

To add athletes or flights use the **Add** button or, on mobile devices, click the menu button and select the appropriate option. Adding a flight will add another flight to the current event, represented by a new flight button at the top of your screen. Adding an athlete will bring up either a window to enter athlete information with the option to add a new team, or a search bar to find an athlete already entered in the meet. Note that only the event selected will be affected by the add flight feature, and you must select an event before adding flights.

The group of buttons that appear to the right of the mark entry section are for moving athletes to new flights, or changing their position in the current one. On mobile devices, the **Move Flight** button can be found in the additional options menu (the three bars at the top right of your screen), and it is replaced with an "Upload" button for your convenience. The  buttons moves the athlete to the next flight. Note that this action is not allowed if there are no further flights. The  button moves an athlete up one position, just as the  moves an athlete down one position. The  button to the left of an athlete's competitor # is for dragging an athlete within a flight. Click here to "pop" an athlete out of the table and then click again to place them back in. On mobile, touch and drag with this icon to move athletes around.

To upload results, simply click the **Upload** button or, on mobile devices, click the  icon, or click the menu button and select the **Upload** option. Note that only the current event will have it's results uploaded. The **Refresh** button is intended as a *last resort only*, and will completely clear any unsynced data with the server. Remember, that while general result entry is designed to function with or without an internet connection, the **Upload** and **Refresh** features require an internet connection to function.

For further detailed instructions, check out the [MeetPro Documentation](#) website. To access this introduction again, look for the ? button on your screen.

Thank you for using MeetPro!

Quick Tips and Troubleshooting

Where's my final?! The prelims are done and the final isn't in Enter Results!

You need to seed the final. Once a preliminary round is complete, go to Seeding. Find the final round and seed it. The final will now be available in Enter Results.

I seeded the 200 and it put every athlete in a heat by himself! What gives?

Sounds like you've got lanes set to 1 for that event. Go to Events, double-click that event and correct the number of lanes. Then re-seed.
