### **Membership Requirement for Insurance Coverage**

Each year we receive a number of inquiries regarding the need to have all club members registered with BC Athletics. The Associations Rules and the Liability Insurance Premium (rate per club) – are the two main reasons why all individuals who are members of BC Athletics member clubs are required to be individual members of BC Athletics.

The rate per club (\$240.00) is based on having all members of clubs members of BC Athletics. The insurance company insures BC Athletics and all its members (clubs and individuals). If members of clubs are not registered

members of BC Athletics then the club could be in jeopardy of not being provided coverage should they be liable for any damages. Furthermore, the insurance company in providing clarification on this matter, has stated that they would consider clubs who do not insure that their members are registered annual members with BC Athletics as having deliberately misrepresented themselves and could be denied coverage under the policy. This as well could have a very negative effect on the BC Athletics premium.

- only accidental injury while participating in a sanctioned/approved practice or competition
- up to a limit of \$10,000.

**Trip/travel** - specific coverage needs be arranged for each trip

- premium cost is **\$3.00** per person per day – increased from \$1.50 because of higher coverage limit
- will pay expenses incurred such as hospital and physician costs due to injury or sickness
- excess of any coverage by BC Med

All coverage would only apply to activities sanctioned/approved by BC Athletics.

**COVERAGE FOR NON CANADIANS:** Foreign athletes taking part in BC Athletics sanctioned competitions are not covered under either the liability or sport injury/accident policies. Unless the individual sued or laid a claim against the organizing committee and BC Athletics then the policy does not respond or cover the medical costs. This applies to any and all athletes. If the individual is a Canadian Citizen then coverage is provided through the Provincial Medical Services Plan. If the injured party is a BC Athletics Annual Member, then costs as per the policy would be covered by the BC Athletics Accident and Sport Injury Insurance Policy. In the case of a foreign athlete they should have medical insurance coverage for foreign countries, which would have to be purchase before entering Canada. An alternative to buying the coverage would be for the organizing committee(s) of the competition(s) the athlete(s) are entering to purchase what is known as “Visitor’s to Canada Hospital Medical Coverage”. The cost of such coverage is approximately \$1.60 to 6.80 per person per day for up to \$150,000.00 in coverage for an individual. Rates are different for various ages, which if in the future was an option for competition organizers, would have to be clarified. With this kind of coverage (Visitor to Canada) the insurance company must be provided with the name(s) of the individual(s) being covered, their year of birth, the date of arrival to Canada and their date of departure from Canada. This coverage is not available through Sport BC Insurance. See Travel Insurance Coordinators at: [www.travelinsurance.ca](http://www.travelinsurance.ca)
