## **Governance Review**

Governance has been the primary focus for the director of administration and planning in 2015.

The governance review committee is analyzing the changes to the BC Societies Act currently underway, and their impact on BC Athletics' bylaws, reporting, record keeping and structure. In addition the governance committee is reviewing BC Athletics within the framework of the strategic plan. A survey was sent to the board of directors regarding the governance of BC Athletics and their role in that process. A long form of the survey will be sent to key board members and staff to collect information for the review. Also the committee will review key documentation, terms of reference, bylaws, constitution, organizational chart, and policies and procedures as part of the review. The review should be completed by the 2016 AGM and will make recommendations on any changes to BCA to meet the new Societies Act.
