Goals for 2016 relating to the Strategic Plan objectives:

- * Creating a database profile for provincial event coaches for an improved two-way communication.
- * Developing a functional mentor system for coaches on any level.
- * Delivering more event specific clinics/workshops all over in BC.
- * Promote community involvements and outreach.
- * Diminishing meet scheduling conflict for jumps with sprints events.
- * Requesting the wooden triple jump take-off board use at all level competitions where the venue is build for it.
- * Create a model how to transfer the depth from the youth to the senior category and how to encourage athletes to stay after post secondary education.

- * Continue recruiting more and more athletes to our events.
- * Keep encouraging Provincial/National athletes to showcase their events. “Plant a love of jump.”
