BC Athletics Return to Training Addendum Amendments

- June 26, 2020
  - Throughout document: formatting adjustments.
  - Section 4.1.2: Updated to more accurately describe BC Athletics Membership roles and requirements.
  - Section 4.1.3: Government Health Officials and viaSport are still advising to stay within the home sport community or club(s) where participants are members.
  - Section 4.3.1.a: Long Jump & Triple Jump Pits are now permissible for use. (See additional health & safety protocols)
  - Section 4.3.1.b: High Jump & Pole Vault Pits are now permissible for use. (See additional health & safety protocols)
  - Appendix B: viaSport Communique – June 25, 2020
    - Please also visit BC ATHLETICS RETURN TO SPORT UPDATE – JUNE 25, 2020
SECTION 1: OVERVIEW

BC Athletics will be following the return to training guidelines developed by the Athletics Canada’s “Back on Track” Task Force that included BC Athletics Staff representation.

- Athletics Canada’s Back on Track Guidelines

BC Athletics’ Return to Athletics Addendum will highlight any additional or differing guidelines that have been set specifically by BC Athletics for the Province of British Columbia.

The recommendations outlined in this document will be reviewed and updated regularly as we receive guidance from the BC Government, WorkSafeBC, and viaSport. Please note resuming of sport activities may not be linear, increasing restrictions may be required in response to fluctuating numbers of COVID-19 cases in the province. Members of BC Athletics need to be flexible to accommodate and respond to changes in community transmission and the changes in advice from the Provincial Health Officer.

Guidelines in this document are for use in training/practice settings. BC Athletics will continue to update these guidelines as we progress through the later phases of the Pandemic. Return to Competition guidelines will be published in a separate document.

All Athletics Canada’s Back on Track guidelines are strongly recommended to be followed and implemented in your training regiments until further notice. In addition to those guidelines, BC Athletics, as recommended by the Government of BC, is recommending the following additions.

SECTION 2: DISCLAIMER

The guidelines included in these Return to Training documents are intended to be used for the purposes set out in the document. While we aim to provide relevant and timely information, because information known about the COVID-19 coronavirus and recommended health and safety measures can rapidly change, no guarantee can be given as to the accuracy or completeness of any information provided in these Guidelines.

It is important to note that the Guidelines are not legal documents and are to be used as a guide only. They are not a substitute for actual legislation or orders of the PHO. In the event of an ambiguity or conflict between the Guidelines and the Public Health Act, regulations, or orders thereunder, the Act, regulations and orders prevail. All members of BC Athletics should comply with the requirements of the provincial and local government and health officials in terms of public gatherings and sporting events when determining when it is safe to return to activities. Nothing in these documents are intended to provide legal advice. Do not rely on these documents or treat them as legal advice.
SECTION 3: MUST BE COMPLETED BEFORE RETURNING TO TRAINING:

SECTION 3.1 INDIVIDUALS (Athletes of all Ages, Post-Secondary Team Roster Athletes, Coaches, Officials, Training, Track Rascals, Associate).

1. All memberships have been set to “inactive” in Trackie.reg. To reactivate one’s membership they must read and complete the following:
   a. Informed Consent and Assumption of Risk Agreement (To be executed by Participants under the Age of Majority and the Participant’s Parent of Guardian)
   b. Release of Liability, Waiver of Claims and Indemnity Agreement (To be executed by Participants over the Age of Majority)
   c. COVID-19 Questionnaire, Attestation and Participant Agreement (To be executed by Participants under the Age of Majority and the Participant’s Parent of Guardian or by Participants over the Age of Majority)

2. To facilitate contact tracing, in the event of an outbreak, each member will also be asked (as part of the waiver and attestation process), to verify that the contact information stated on their 2020 BC Athletics membership (Trackie.me) is current and up to date including:
   a. Individual’s PERSONAL Email
   b. Home address
   c. Phone Number

SECTION 3.2 CLUBS & TRAINING GROUPS

1. Clubs & Training Groups must:
   a. Appoint a Health/Safety Officer
   b. Complete risk assessment before using a public facility.
      i. Club Risk Assessment and Club Mitigation Checklist Tool
   c. Sign Club Attestation acknowledging they have read the guidelines and understand their risk and are committed to implementing the current recommendations.
   d. Conduct routine daily symptom screenings for all coaches, volunteers, and participants. Wellness questionnaires and use of self-assessment tools are recommended.
      i. SAMPLE Athlete Check-In Document
   e. Communication with all club members and/or facility users of any training restrictions, regulations, and recommendations.

2. The BC Recreation and Parks Association Guidelines outline that user groups of rented municipal facilities are required to have a COVID-19 Safety Plan that clearly demonstrates how activities will be provided to align with the directives of the Provincial Health Officer, local authorities and other relevant regulators (i.e. WorkSafe BC).
   a. BC Recreation and Parks Association Guidelines
   b. Sample Safety Plan Template can be found in Appendix G of the viaSport Guidelines or via WorkSafeBC.

Additional Templates, resources, and links to waivers can be found in Appendix A.
SECTION 4: BC ATHLETICS RECOMMENDATIONS TO BE USED IN ADDITION TO/IN REPLACE OF ATHLETICS CANADA’S “BACK ON TRACK” GUIDELINES:

SECTION 4.1: General Overview and Recommendation for All Members

1. It is recommended that Clubs or Training Groups meet with their athletes, coaches, officials, associates, and parents as appropriate, to present the Club’s “Return to Sport” plan and discuss any issues and concerns that individual members may have. This meeting should follow the guidelines of the Provincial/Local Health Authorities relative to the size of gatherings, physical distancing, and necessary hygiene/safety protocols in place at facilities. Recommended to hold the meeting(s) through Video Conferencing.

2. Any individual attending a sanctioned training session must be a member of BC Athletics and have a current membership that aligns with the role/responsibility/position they have. i.e. Someone who is coaching must have a BC Athletics Coach membership; an Official – a BC Athletics Officials Membership; a Club Executive – a minimum of a BC Athletics Associate Membership.

3. Remain Community Focused
   a. Government Health Officials and viaSport are still advising to stay within the home sport community or club(s) where participants are members.
   b. Avoid cross-regional, inter-provincial or cross-country travel. Note that only smart, safe, and respectful travel within B.C. is permitted at this time. International travel is subject to quarantine rules and raises other risks including unpredictable flight schedule changes and cancellations, and the potential for sudden changes to border controls.

SECTION 4.2: Setting Up A Safe Training Environment – Recommendation for Clubs, Facilities & Coaches

1. All group training must follow current BC Health guidelines. Current guidelines limit group gatherings to a maximum of 50 and continued use of physical distancing and hygiene measures. BC Athletics also recommends:
   a. Size of individual training groups limited to 10 (One coach to 9 athletes).
      i. For clarity, a club may hold a training session for 50 athletes, coaches, and volunteers but, any one training group (i.e. Throws Group) should be limited to 10.
   b. One coach should not have multiple groups in one facility at the same time. Instead, the coach should have them staggered to mitigate transmission between training groups.
   c. Clubs will need to consider other factors to determine what size of gatherings are appropriate for their space and the ability to maintain physical distancing.
   d. Maximum group size counts need to consider staff, coaches, participants, spectators, etc., and the size of the space is also a key factor. There must be sufficient space in the venue to allow for physical distancing between people; this means that in a smaller venue, occupancy limits may be much less than 50.
2. Ensure Personal Protective Equipment (gloves, masks, etc.) is on hand and available to coaches. Where risk of exposure is high (cannot maintain physical distancing), PPE should be required. Train coaches on how to put masks and gloves on and off to avoid cross-contamination. BC CDC Information on Masks [Here]. Ensure that PPE is not used as a substitute for more effective safety measures (distancing, hygiene). Refer to WorkSafe BC on specifics related to use of PPE.

3. Signage within the facility is important to ensure that participants are aware of expectations related to use of the facility and best practices related to maximum capacity, physical distancing, personal hygiene, and protection against COVID-19. See Appendix A for links to download posters. It is important to ensure that facility plans can support sport-specific plans. Contact Recreation Facilities Association of BC: [www.rfabc.com](http://www.rfabc.com) for additional resources and advice.

SECTION 4.3: Event Specific Guidelines

1. Horizontal & Vertical Jumps
   a. Long Jump & Triple Jump Pits are now permissible for use.
      i. It is important to recognize that there currently is no known method to ensure sand pits are properly sanitized. As a result, use of these sand pits comes with an increased risk of infection. To help mitigate this risk we strongly recommend:
         1. Sanitizing your hands before and after each jump.
         2. Avoid getting sand in your eyes, nose, or mouth.
         3. The landing pit should be fully turned and raked before and after each individual athlete/user.
         4. Equipment such as rakes, measuring tapes, should be managed by dedicated individuals for a particular session i.e. one athlete or the coach, and cleaned between one athlete's series of jumps or between sessions.

   b. Pole Vault & High Jump Pits are now permissible for use.
      i. Required:
         1. Pits are to be covered by a large tarp that must be fully sanitized before and after each individual athlete/user.
         2. Pits are to be covered by a large tarp that is unique to each athlete and put in place and removed before and after each individual athlete/user (therefore multiple tarps needed).
         3. Poles should be re-gripped before use and any part of the pole outside of the grip should be cleaned before use by another athlete.
4. Cross Bars should be cleaned before use and managed by dedicated individual for a particular session. Bars should be sanitized after contact by an athlete.
5. Have the approval of the facility owner to use equipment – if not owned by the club.

SECTION 4.4: Outbreak Action Plan

4. Emergency Response
   a. First Aid
      i. If first aid is required to be administered during an activity, all persons attending to the injured individual must first put on a mask and gloves.
      ii. A guide for employers and Occupational First Aid Attendants
      iii. First aid protocols for an unresponsive person during COVID-19
   b. Outbreak Action Plan
      i. Identify the roles and responsibilities of staff or volunteers if a case or outbreak is reported. Determine who within the organization has the authority to modify, restrict, postpone, or cancel activities.
      ii. If staff (including volunteers) or a participant reports they are suspected or confirmed to have COVID-19 and have been at the workplace/activity place, implement enhanced cleaning measures to reduce risk of transmission. If you are not the facility operator, notify the facility right away.
      iii. Implement your illness policy and advise individuals to:
         1. self-isolate
         2. monitor their symptoms daily, report respiratory illness and not to return to activity for at least 10 days following the onset of fever, chills, cough, shortness of breath, sore throat and painful swallowing, stuffy or runny nose, loss of sense of smell, headache, muscle aches, fatigue and loss of appetite.
         3. Use the COVID-19 self-assessment tool at BC COVID-19 Self-Assessment Tool to help determine if further assessment or testing for COVID-19 is needed.
            a. BC COVID-19 Self-Assessment Tool
            b. Individuals can contact 8-1-1 if further health advice is required and 9-1-1 if it is an emergency.
            c. Individuals can learn more about how to manage their illness here.
      iv. In the event of a suspected case or outbreak of influenza-like illness, immediately report and discuss the suspected outbreak with the Medical Health Officer (or delegate) at your local health authority. Implement your Illness Policy and your enhanced measures.
         1. Regional Health Authorities
      v. If your organization is contacted by a medical health officer in the course of contact tracing, cooperate with local health authorities.

- BCRPA Sector Guidelines for Restarting Operations
Dear Sector Leaders,

Yesterday, Premier Horgan announced that British Columbia has moved into Phase 3 of the B.C. Restart Plan. This is welcome news for many of us individually as we can now take part in smart, safe and respectful travel within B.C., mainly inside our bubbles.

What does Phase 3 mean for sport in our province? The B.C. Restart Plan takes a phased approach to the reopening of the province, allowing sectors and activities within the phases to open when the evidence and data tells us the time is right, and as protocols and guidance are in place for them to do so safely. Phase 3 of the plan indicates that guidelines and extra safety precautions for sectors returning in Phase 2 are still in place for sport activities. This means that for the present time, sport activity recommendations for our sector remain as they were in Phase 2, namely following the Transition Measures outlined in the Return to Sport Activity Chart from viaSport’s Return to Sport Guidelines. Things remain status quo for now, and we are working with the government to gain a better understanding of how sport will be able to progress safely within our stages over the coming months.

You will have also likely heard that the state of emergency has been extended to July 7, 2020, and with that COVID-19 liability protection for non-profit sport organizations is also extended. Further, legislation has been proposed to extend this protection up to 90 days after the state of emergency is declared over. We know that a longer term solution is desired, and we have advanced your concerns about the length of this coverage to government and understand this concern is being reviewed across multiple sectors/ministries.

With 39 sport-specific plans completed to-date, our sector is well-positioned to keep people safe as restrictions loosen over time across the province. That said, I understand the announcement yesterday may create some concerns and confusion among clubs and participants as to what exactly this means for sport activities right now. It is important that we as leaders communicate that the extra precautions as outlined in Phase 2 for sport are still in place, including:

- Two metre social distancing (no contact; focus on individual skill work and drills)
- Increased hand hygiene and disinfecting (minimal sharing of equipment)
- Local community travel only
- No gatherings of over 50 people (small group, in-club competition; limited spectators and open spaces)
- If anyone is exhibiting cold or flu-like symptoms, they should stay home and away from others

To further spread this message and consult with communities, we have partnered with our Regional Alliance to host virtual town hall meetings across the province, which have been successful so far. We also continue to share updates with the wider sport community through our newsletter and engagements with media, as I know many of you have also been doing. Thank you for playing this important role of communicating with the public. Let’s keep working together to keep sport enthusiasts informed.

On another note, we’re pleased to announce we are launching a new grant that aims to help organizations keep girls aged 11-14 participating in sport. She Plays is funded by Sport Canada and will offer support for organizations to pilot innovative programming targeted at this crucial age group. The application period runs until July 16, so please share this opportunity with your networks if you have a chance.

As always, our team is here to support you as we work through these next stages together.

Enjoy the Canada Day holiday.

Sincerely,

Charlene Krepiakevich
CEO, viaSport
