## JD Awards Standards for 2023

These awards standards are based on the 2021 All Time Top Ten Tables as described below
Values in red are for new events and are tentative. They may be changed slightly by awards committee

The philosophy used for creating these JD Awards Standards:
a Take the average of the \#1, \#2, and \#3 from the All Time Top Ten list (Av123) from 2021 as the starting point for each event.
b
c Multiply Av123 by factors which define JD Awards standards for that event.
c
There is a different factor for each of the seven areas of athletics:
sprints, distance, hurdles, vertical jumps, horizontal jumps,throws and pentathlon
d
e $\quad$ The factors give a similar distribution in each area and give a weighting to each area that reflects the number of events.
The set of factors used was obtained from the results for all athletes and all events in the 2011, 2012 and 2013 seasons
