

Revelstoke Secondary School, Revelstoke BC

April 7th, 2014

This past Monday in Revelstoke, BC a group of dedicated teachers and local coaches participated in the Teacher In-Service Run Jump Throw course to receive their instructor training. This marks the first Run Jump Throw instructor training course held in the community to date. Revelstoke is no stranger to track and field talent as many high school athletes have pursued athletic scholarships within Canada and the US. Organizer Kendra von Bremen recognized the need for quality physical literacy teachings delivered at the grassroots level, as key to the development of future active youth and the continued success of athletics within Revelstoke.

Special thanks to School District #19 and PacificSport Interior for your support and continued partnership in making Run Jump Throw events such as these a possibility.
