- **Priority Item(s) | What We Are Working On-In Progress**

- Normally we would have a list of working items balanced between small tactical needs of regional events/ athletes and clubs and larger pieces connected to the strategic plan. The Global Health Emergency has put forth a variety of needs and planning for race organizers, clubs, and athletes that is unprecedented. Our primary main focus for the rest of 2020 is on supporting BCA staff & Board with return to sport guidelines/ resources and understanding the impact and strategy for 2021.
