

BC Athletics Members,

It's been my pleasure to represent Zone 3, 4, 5 on the BC Athletics Board these past three years, and I am pleased to stand for re-election. I have appreciated the opportunity to connect with many athletes, coaches and officials and have been involved in decision-making policies. Along with zone representative Jacob Emerson, I have surveyed the zone clubs, talked with members, and brought their concerns to the Board.

I am a long-time member of Universal Athletics Club, and have been involved in coaching, administration, as well as participating as an athlete for UAC. I attended SFU on a track and academic scholarship and finished my Bachelor of Science with Honours in Biomedical Physiology in 2019. I am now finishing up my Masters in Kinesiology at UBC. Track and Field has helped keep me disciplined on and off the track and has been a huge factor in helping me achieve everything that I have so far.

As a member of the Board of BC Athletics, I will continue to give back to this wonderful organization and strive to ensure that Athletics can be as rewarding to other members as it has been for me.
