- **Priority Item(s) | What We Are Working On-In Progress**

- Normally we would have a list of working items balanced between small tactical needs of regional events/ athletes and clubs and larger pieces connected to the strategic plan. The pandemic has put forth a variety of challenges for race organizers, clubs, and athletes that is unprecedented. Our primary main focus for the remainder of 2021 to support BCA staff, the Board, clubs & organizers with a return to sport on the backdrop of the Tokyo Olympics and understanding the impact of the pandemic and strategy for 2022
